

Certificate III in Property Services (Agency) CPP30207

Overview:

What you will learn

The Certificate III in Property Services (Agency) has been developed to provide a qualification for office support staff which is of relevance to both employer and employee. It is a nationally recognised qualification and, for those who are interested, provides the first step of a career path in the real estate industry.

Where the course may lead

Completion of the course will provide you with skills and knowledge relevant to your job role, furthering your career in real estate and providing a pathway to the Certificate IV in Property Services (Real Estate)

Details:

Delivery Method

Training is delivered either through distance learning or class based training, student's progress will be evaluated through assignments, class based activities, maintenance of a training record book and a final workplace assessment. Due to its on-the-job training requirement this course is only available to those already employed in the real estate industry.

Duration

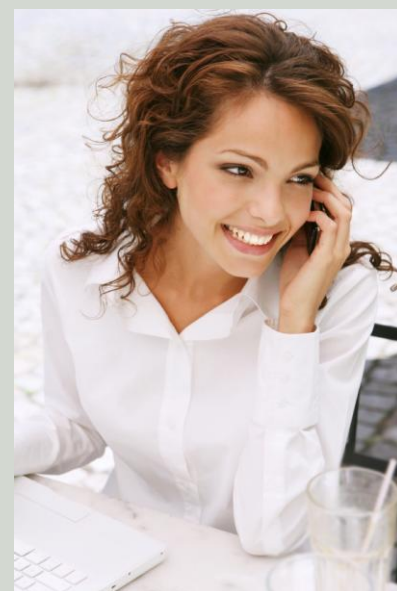

Duration of this course is generally 12 months. REIT also offers an accelerated course over three months, this will commence annually in March.

Investment

Students undertaking a certificate course may qualify for funding which will cover the majority of course fees. Employers may also be eligible for government incentive payments of up to \$4400. These are conditional, contact the REIT Training Department to discuss payment options and pricing plans.

Qualification Rules

To achieve recognition at the Certificate III level, the candidate must demonstrate competency in the five core units, plus nine electives chosen a list of electives (14 units in total)
